Dear Mr. Short  
It's been really  
a nice having you as  
a teacher all the year in  
spite of all the homework we  
had to have a lot. It was  
mostly because I wanted to have  
a nice house as you did that. A hope my next  
teacher is as nice as you are. Love many.  
P.S.

Dear Mr. Short

Dear Mr. Short for a

I have been having a great deal of pleasure in learning  
the language and also in Social Studies.  
I am writing to you from my home in Corning.  
I hope you will receive this letter well.

Mr. William Paarlberg, Assistant Director and Coordinator of Special Education.

Dear Parent:

Metcalf School continues its commitment to giving each child an excellent education. In addition, it provides a laboratory for educational research activities and selected services to the teacher preparation programs of Illinois State University.

During the past school year Metcalf has been involved in a research project titled "Special Needs Assessment Program" designed to identify unusual needs of pupils and develop programs to meet those needs.

We are also heavily involved in another research project titled "Process Approach to Planned Change" which is focused upon a method of implementing planned change within the existing organizational structure.

An overall plan for health education was completed and the first curriculum units were presented to the staff. In addition, a large number of non-print materials to support the health education program were obtained from a Title II Grant through the Illinois Office of Education.

We have had an interesting, challenging and most successful year. This is primarily the result of the combined efforts of pupils, parents and our excellent Metcalf staff.
